

Preparing for your Kip Online Assessment

Pre-check

Step 1 - Make sure you have access to a PC or a laptop (Sorry, iPads and Phones will not work).

Step 2 - Run this 90-second diagnostic tool to check your PC/laptop has good connectivity (audio, video and internet). www.tokbox.com/developer/tools/precall

Step 3 - Make sure that you have the Google Chrome browser (sorry, Safari will not work). If you do not have Google Chrome already, you can download it using this link: <https://www.google.com/chrome/>

On the day

Step 4 (optional) - To avoid camera and mic issues, it is recommended that you reboot your PC/laptop just before you log into the iKip system for the assessment.

Step 5 - Have your login details close to hand.

Step 6 - Log in using the Google Chrome browser.

Step 7 - If you have any logging in issues, call 897858 and we may be able to assist you.
